

Refurbishment & Restart Project

MILESTONE Achievement

Milestone Title	First Concentrate Production		
Milestone Date	18 November 2017	Milestone Time	11.30am
Location	Concentrator (Filter Building)		
Milestone Description			
<p>The discharge of the first copper concentrate from the filter press!</p> <p>This represents the first production of concentrate from the Capricorn Copper joint venture under the ownership of Lighthouse Minerals and EMR Capital and the first by the mine since April 2013</p> <p>A tremendous result for everyone involved. Every individual who has contributed to the project since its inception should be very proud of their efforts.</p> <p>This is the first step in what will be a bright, long term production future for CCM</p>
