

# Water Treatment Plant Operational MILESTONE Achievement

<b>Milestone Title</b>	<b>Water Treatment Plant Operational</b>
<b>Milestone Date</b>	25 <sup>th</sup> October 2017

## Milestone Description

The newly refurbished and redesigned Water Treatment Plant has been successfully commissioned. The Water Treatment Plant is now operational treating acidic Esperanza Pit water to produce clear, low-sulphate water suitable for use in the copper concentrator. The treated clean water is being stored in the process water ponds in anticipation of the copper concentrator startup.
